📄 About Me

Software Engineering student focused on continuously improving my technical skills and developing reliable, sustainable software solutions. I aim to contribute to innovative and technology-driven projects that address real-world needs while further developing my technical and professional competencies.

🎓 Education

Eastern Mediterranean University

B.Sc. in Software Engineering

2022 – Present

GPA: 3.33 / 4.00

💻 Technical Skills

Programming Languages — Java, JavaScript, Python

Frontend — React, HTML, CSS

Backend — Node.js, Express

Databases — MySQL, PostgreSQL, Firebase

Tools — Git, GitHub, VS Code, Vite

🌐 Languages

English — B2 Upper-Intermediate

🏆 Academic Achievements

Honor Certificate

Spring 2025–2026

High Honor Certificate

Fall 2025–2026

High Honor Certificate

Spring 2023–2024

Honor Certificate

Fall 2024–2025

Honor Certificate

Fall 2023–2024

💼 Experience

Microsoft

AI Intern — AI Innovators Summer Internship Program

06/2026 – 07/2026 | Remote

Developed an offline RAG-based AI assistant and worked on semantic search, real-time response streaming, and document management.

Technologies: Node.js, Express, SQLite, Microsoft Foundry Local

Bilicisoft Bilişim ve Savunma Teknolojileri

Software Engineer Intern

07/2026 – 08/2026 | Ankara, Turkey

Contributed to the development of an Angular-based advanced warehouse management system, working on inventory, lot/serial tracking, picking, packing, and shipping modules.

Technologies: Angular, TypeScript, RxJS

📁 Projects

KanYolda

Blood Donation Matching Mobile & Web Platform

(Next.js, TypeScript, React Native, Firebase)

Perfi.ai

AI-Powered Perfume Recommendation System

(Node.js, Express, Python, FastAPI, SentenceTransformers)

Sinaru — RAG

Local AI Document Question-Answering Assistant

(Node.js, Express, SQLite, Microsoft Foundry Local)

Wavent

Advanced Warehouse Management System

(Angular, TypeScript, RxJS)

Frekans Enerji FSM

Enterprise Field Service Management System

(JavaScript, Express, SQLite, Leaflet.js)

Eventify-TRNC

Municipality Event Management System

(React, Node.js)

Keyco

Digital Game Code & Account Marketplace

(React, Node.js, Firebase)

Emu Rebook

Book Exchange & Marketplace Mobile Application

(Flutter, Firebase)

Roadnix

Interactive Traffic Education Platform

(React, Vite)

Tarihi Sanayi Köftecisi

Restaurant Promotional Website

(HTML, CSS)

📜 Certificates

TEKNOFEST — Event Staff Certificate

Hugging Face — Certificate of Fundamentals of Agents — AI Agents Course

Anthropic — AI Fluency: Framework & Foundations — Certificate of Completion

Artificial Intelligence Summit'25 — Event Staff Certificate

Artificial Intelligence Summit'24 — Certificate of Participation

Git & GitHub Training — Cengizhan Köse

Silicon Valley Artificial Intelligence Career — Caner Şekerci

Data Science and Artificial Intelligence Seminar — Mehmet Halil Başaranoglu
